DETAILED ACTION

Election/Restrictions

Applicant's election of group I in the reply filed on 7/20/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 37-70 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/20/04.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14, 16, 22-27, and 36 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over "K-1 Vehicle TA-10 Flight Experiment Design and Requirements Document" now referred to as "K-1".

K-1 discloses a system for introducing payloads into earth orbit having the claimed elements.

Art Unit: 3644

Please note that sensors, data storage unit, and avionics data bus are notorious in this day and age. Therefore, one skilled in the art would have used these elements in order to do the experiments.

Allowable Subject Matter

Claims 15, 17-21, 28-35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Mueller et al, Dotts et al, Ludwig et al, von Bun et al, Young, and Harris et al teach spacecraft means.
